PROFESSIONAL SUMMARY

React.js Developer with 3+ years of experience building and maintaining production-grade SaaS, CRM, and e-commerce web applications. Specialized in React.js, Next.js, and modern UI systems with a strong focus on reusable components, API-driven architecture, and scalable frontend solutions. Experienced in owning end-to-end frontend development for multi-tenant platforms, working closely with backend teams, and delivering features used across multiple client portals in live environments.

LANGUAGES

Urdu
(Native)

English
(Professional Working Proficiency)

EDUCATION

Bachelor of Computer Software Engineering
Foundation University, Islamabad, Pakistan
07/2022 | Islamabad, Pakistan
Graduated: July 2022

PROFESSIONAL EXPERIENCE

React.js Developer

Hikal Pvt. Limited

03/2023 – 01/2026 | Islamabad, Pakistan

- Developed a multi-tenant SaaS CRM system from scratch using React.js, enabling businesses to manage customers, campaigns, and internal operations through personalized portals.
- Implemented a subscription-based workflow allowing users to select plans, complete payments, access CRM dashboards, and manage automated package expiration.
- Built a custom CMS platform with a complete frontend and secure API integrations, enabling centralized management of multiple clients and their content.
- Integrated Facebook Graph APIs to support campaign tracking and performance monitoring, presenting data through interactive charts and tables.
- Designed middleware logic to handle unauthorized API requests and improve overall application security.
- Integrated Google APIs for authentication and location-based features, including Google Maps.
- Delivered an Employee Attendance Management System with attendance tracking, salary management, and automated PDF report generation.
- Developed multiple responsive company websites with modern UI/UX, improving brand presentation and usability.
- Collaborated closely with backend developers, designers, and product stakeholders to deliver stable and maintainable UI components.

React.js Developer

Prow Techs

09/2022 – 03/2023 | Islamabad, Pakistan

- Developed a custom storefront for the Abante Cart e-commerce platform using React.js and Bootstrap.
- Integrated Abante Cart backend APIs to support product listings, brand filtering, authentication, cart, checkout, and product detail pages.
- Built reusable React components and custom hooks to streamline API communication and state management.
- Focused on creating a smooth and responsive user experience across desktop and mobile devices.

KEY PROJECTS & CONTRIBUTIONS

Built a full-featured SaaS CRM platform

with subscription handling, tenant-based access, and automated expiration management.

CORE SKILLS

Frontend

React.js Next.js JavaScript (ES6+)
TypeScript HTML5 CSS3 Tailwind CSS
Bootstrap Material UI (MUI) Redux
